"(ii) broad tariff changes that are of at least substantially general application throughout the area where the changes will apply, except single line rates where subparagraph (A)(i) of this paragraph prohibits the participation of carriers with single line rates.

If the Commission finds at any time that the implementation of this subparagraph is not feasible, it may delay or suspend such implementation in whole or in part.".

In any proceeding in which such a violation is alleged, evidence of a discussion or agreement between or among such carrier and one or more other carriers, or of any rate or other action resulting from such discussion or agreement, shall not be admissible if the discussion or agreement—

"(I) was in accordance with an agreement approved under paragraph (2) of this subsection; or

TITLE IV—RAILROAD MODERNIZATION ASSISTANCE

FEEDER RAILROAD DEVELOPMENT PROGRAM

SEC. 401. (a) Subchapter I of chapter 109 of title 49, United States Code, is amended by adding at the end thereof the following new section:

49 USC 10910.

"§ 10910. Railroad development

Definitions.

"(a) In this section—

"(1) 'financially responsible person' means a person who (A) is capable of paying the constitutional minimum value of the railroad line proposed to be acquired, and (B) is able to assure that adequate transportation will be provided over such line for a period of not less than 3 years. Such term includes a government authority but does not include a class I or a class II rail carrier.

"(2) 'railroad line' means (A) during the 3-year period beginning on the effective date of the Staggers Rail Act of 1980, a line of railroad which carried less than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year, and (B) after the end of such 3-year period, any line of railroad.

Ante, p. 1895.

Railroad lines, sale.

"(b)(1) When the Interstate Commerce Commission finds that—

"(A)(i) the public convenience and necessity require or permit the sale of a particular railroad line under this section; or

"(ii) a railroad line has been placed on a system diagram map as required under section 10904 of this title, but the rail carrier owning such line has not filed an application to abandon such line under sections 10903 and 10904 of this title; and

49 USC 10904.

49 USC 10903.

"(B) an application to purchase such line has been filed, in accordance with regulations required under subsection (k) of this section, by a financially responsible person,

the Commission shall require the rail carrier owning the railroad line to sell such line to such financially responsible person at a price not less than the constitutional minimum value.

"(2) For purposes of this subsection, the constitutional minimum value of a particular railroad line shall be presumed to be not less than the net liquidation value of such line or the going concern value of such line, whichever is greater, but shall not include the cost of providing a protective arrangement under subsection (j) of this section.

"(c)(1) For purposes of this section, the Commission may determine that the public convenience and necessity require or permit the sale of a railroad line if the Commission determines, after a hearing on the record, that—

"(A) the rail carrier operating such line refuses within a reasonable time to make the necessary efforts to provide adequate service to shippers who transport traffic over such line;

"(B) the transportation over such line is inadequate for the majority of shippers who transport traffic over such line;

"(C) the sale of such line will not have a significantly adverse financial effect on the rail carrier operating such line;

"(D) the sale of such line will not have an adverse effect on the overall operational performance of the rail carrier operating such line; and

94 STAT. 1940

"(E) the sale of such line will be likely to result in improved railroad transportation for shippers that transport traffic over such line.

Publication in Federal Register.

"(2) In a proceeding under this subsection, the burden of proving that the public convenience and necessity require or permit the sale of a particular railroad line is on the person filing the application to acquire such line. If the Commission finds under this subsection that the public convenience and necessity require or permit the sale of a particular railroad line, the Commission shall concurrently notify the parties of such finding and publish such finding in the Federal Register.

Carrier trackage rights.

"(d) In the case of any railroad line subject to sale under subsection (a) of this section, the Commission shall, upon the request of the acquiring carrier, require the selling carrier to provide to the acquiring carrier trackage rights to allow a reasonable interchange with the selling carrier or to move power equipment or empty rolling stock between noncontiguous feeder lines operated by the acquiring carrier. The Commission shall require the acquiring carrier to provide the selling carrier reasonable compensation for any such trackage rights.

"(e) The Commission shall require, to the maximum extent practicable, the use of the employees who would normally have performed work in connection with a railroad line subject to a sale under this section.

Joint rates.

49 USC 10705.

"(f) In the case of a railroad line which carried less than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year, whenever a purchasing carrier under this section petitions the Commission for joint rates applicable to traffic moving over through routes in which the purchasing carrier may practicably participate, the Commission shall, within 30 days after the date such petition is filed and pursuant to section 10705(a) of this title, require the establishment of reasonable joint rates and divisions over such route.

Exemptions.

49 USC 10701 *et seq.*

"(g)(1) Any person operating a railroad line acquired under this section may elect to be exempt from any of the provisions of this title, except that such a person may not be exempt from the provisions of chapter 107 of this title with respect to transportation under a joint rate.

Ante, p. 1895.

"(2) The provisions of paragraph (1) of this subsection shall apply to any line of railroad which was abandoned during the 18-month period immediately prior to the effective date of the Staggers Rail Act of 1980 and was subsequently purchased by a financially responsible person.

"(h) If a purchasing carrier under this section proposes to sell or abandon all or any portion of a purchased railroad line, such purchasing carrier shall offer the right of first refusal with respect to such line or portion thereof to the carrier which sold such line under this section. Such offer shall be made at a price equal to the sum of the price paid by such purchasing carrier to such selling carrier for such line or portion thereof and the fair market value (less deterioration) of any improvements made, as adjusted to reflect inflation.

Preconditions for shippers.

"(i) Any person operating a railroad line acquired under this section may determine preconditions, such as payment of a subsidy, which must be met by shippers in order to obtain service over such lines, but such operator must notify the shippers on the line of its intention to impose such preconditions.

Employee interests, protection.

49 USC 11347.

"(j) In the case of any railroad line sold pursuant to this section, the Commission shall require the selling carrier to provide a fair arrangement at least as protective of the interests of employees as that established under section 11347 of this title.

Regulatioins and procedures.

(c) Section 10905 of title 49, United States Code, is amended to read as follows:

49 USC 10905.

"§ 10905. Offers of financial assistance to avoid abandonment and discontinuance

Definitions.

"(a) In this section—

"(1) 'avoidable cost' means all expenses that would be incurred by a rail carrier in providing transportation that would not be incurred if the railroad line over which the transportation was provided were abandoned or if the transportation were discontinued. Expenses include cash inflows foregone and cash outflows incurred by the rail carrier as a result of not abandoning or discontinuing the transportation. Cash inflows foregone and cash outflows incurred include—

"(A) working capital and required capital expenditure;

"(B) expenditures to eliminate deferred maintenance;

"(C) the current cost of freight cars, locomotives, and other equipment; and

"(D) the foregone tax benefits from not retiring properties from rail service and other effects of applicable Federal and State income taxes.

"(2) 'reasonable return' means—

"(A) if a rail carrier is not in reorganization, the cost of capital to the rail carrier, as determined by the Interstate Commerce Commission; and

"(B) if a rail carrier is in reorganization, the mean cost of capital of rail carriers not in reorganization, as determined by the Commission.

"(b) Any rail carrier which has filed an application for a certificate of abandonment or discontinuance shall provide promptly to a party considering an offer of financial assistance and shall provide concurrently to the Commission—

"(1) an estimate of the annual subsidy and minimum purchase price required to keep the line or a portion of the line in operation;

"(2) its most recent reports on the physical condition of that part of the railroad line involved in the proposed abandonment or discontinuance;

"(3) traffic, revenue, and other data necessary to determine the amount of annual financial assistance which would be required to continue rail transportation over that part of the railroad line; and

"(4) any other information that the Commission may deem necessary to allow a potential offeror to calculate an adequate subsidy or purchase offer.

Publication in Federal Register.
49 USC 10903.

Subsidy or purchase offer.

"(c) When the Commission finds under section 10903 of this title that the public convenience and necessity require or permit abandonment or discontinuance of a particular railroad line, it shall, concurrently with service of the decision upon the parties, publish the finding in the Federal Register. Within 10 days following the publication, any person may offer to pay the carrier a subsidy or offer to purchase the line. Such offer shall be filed concurrently with the Commission. If the offer to subsidize or purchase the line is less than the carrier's estimate provided under subsection (b)(1) of this section, the offer shall explain the basis of the disparity, and the manner in which the offer of subsidy or purchase is calculated.

Railroad line abandonment or discontinuance, postponement.

"(d) If, within 15 days after the publication required in subsection (c) of this section, the Commission finds that—

"(1) a financially responsible person (including a government authority) has offered financial assistance to enable the rail transportation to be continued over that part of the railroad line to be abandoned or over which all rail transportation is to be discontinued; and

"(2) it is likely that the assistance would be equal to—

"(A) the difference between the revenues attributable to that part of the railroad line and the avoidable cost of providing rail freight transportation on the line, plus a reasonable return on the value of the line; or

"(B) the acquisition cost of that part of the railroad line; the Commission shall postpone the issuance of a certificate authorizing abandonment or discontinuance in accordance with subsections (e) and (f) of this section.

"(e) If the carrier and a person offering financial assistance enter into an agreement which will provide continued rail service, the Commission shall postpone the issuance of the certificate for so long as the agreement, or an extension or modification of the agreement, is in effect. If the carrier and a person offering to purchase a line enter into an agreement which will provide continued rail service, the Commission shall approve the transaction and dismiss the application for abandonment or discontinuance. If the carrier and a financially responsible person (including a government authority) fail to agree on the amount or terms of the subsidy or purchase, either party may, within 30 days after the offer is made, request that the Commission establish the conditions and amount of compensation. If no agreement is reached within 30 days after the offer is made and neither party requests that the Commission establish the conditions and amount of compensation during that same period, the Commission shall immediately issue a certificate authorizing the abandonment or discontinuance.

Subsidy or purchase terms, establishment.

"(f)(1) Whenever the Commission is requested to establish the conditions and amount of compensation under this section—

"(A) the Commission shall render its decision within 60 days;

"(B) where subsidy has been offered, the Commission shall determine the amount and terms of subsidy based on the avoidable cost of providing continued rail transportation, plus a reasonable return on the value of the line; and

"(C) where an offer of purchase has been made in order to continue rail service on the line, the Commission shall determine the price and other terms of sale. In no case shall the Commission set a price which is below the fair market value of the line (including, unless otherwise mutually agreed, all facilities on the line or portion necessary to provide effective transportation services).

"(2) The decision of the Commission shall be binding on both parties, except that the person who has offered to subsidize or purchase the line may withdraw his offer within 10 days of the Commission's decision. In such a case, the Commission shall immediately issue a certificate authorizing the abandonment or discontinuance, unless other offers are being considered pursuant to paragraph (3) of this subsection.

"(3) If a carrier receives more than one offer to purchase or subsidize, it shall select the offeror with whom it wishes to transact business, and complete the sale or subsidy agreement, or request that the Commission establish the conditions and amount of compensation prior to the 40th day after the date on which notice was published under subsection (c) of this section. If no agreement on subsidy or sale is reached within the 40-day period and the Commission has not been requested to establish the conditions and amount of compensation, any other offeror may request that the Commission establish the conditions and amount of compensation. If the Commission has established the conditions and amount of compensation and the original offer has been withdrawn, any other offeror may accept the Commission's decision within 20 days of such decision, and the Commission shall require the carrier to enter into a sale or subsidy agreement with such offeror, if such sale or agreement incorporates the Commission's decision.

Service discontinuance or transfer, prohibition.

"(4) No purchaser of a line or portion of line sold under this section may transfer or discontinue service on such line prior to the end of the second year after consummation of the sale, nor may such purchaser transfer such line, except to the carrier from whom it was purchased, prior to the end of the fifth year after consummation of the sale.

Subsidy discontinuance.

"(5) Any subsidy provided under this section may be discontinued on notice of 60 days. Unless, within such 60-day period, another

94 STAT. 1945

financially responsible party enters into a subsidy agreement at least as beneficial to the carrier as that which was or was to be discontinued, the Commission shall, at the carrier's request, immediately issue a certificate authorizing the abandonment or discontinuance of service on the line.".

TITLE V—CONRAIL TITLE V LABOR PROTECTION

MONTHLY DISPLACEMENT ALLOWANCE

Pay rate.

SEC. 501. Section 505(b) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 775(b)) is amended to read as follows:

"(b) MONTHLY DISPLACEMENT ALLOWANCE.—A protected employee shall be paid a monthly displacement allowance for any calendar month within the period identified in subsection (c) of this section in which the employee is deprived of employment or adversely affected with respect to such employee's compensation, in accordance with the following provisions:

Ante, p. 1895.

"(1)(A) Effective on the effective date of the Staggers Rail Act of 1980, the protected rate of pay of a protected nonoperating employee (other than a maintenance-of-way employee) who has been deprived of employment or adversely affected with respect to such employee's compensation shall be based on the rate of pay of the position held by the employee on September 1, 1979, or if the employee held no position on that date, the rate of pay of the last position held by the employee prior to that date. A guaranteed hourly rate of pay will be computed for each protected employee, based on the rate described in the preceding sentence, and will be (i) the actual hourly rate for hourly rated employees, (ii) the daily rate divided by 8 for daily rated employees, and (iii) the monthly rate divided by the working days in the claim month, further divided by 8, in the case of monthly rated employees. For employees occupying relief positions, the guarantee shall be computed on the basis of the weighted average daily rate of the positions relieved. Extra list employees will be guaranteed the extra list rate.

"(B) In the event a protected employee's position is abolished or such employee is displaced and is thereby required to occupy a position paying an hourly rate that is less than such employee's guaranteed hourly rate, the protected employee shall be paid the difference between the hourly rate of pay of the position such employee is occupying and his guaranteed hourly rate for all hours included in the straight time work schedule of such employee's position for the month of claim, less any time lost on account of voluntary absences other than vacations. Hours worked in excess of the straight time work schedule shall be paid in addition to the guarantee at the rate applicable to the position occupied, as provided for in the applicable collective bargaining agreement.

"(C) For any month or portion thereof in which a protected employee is deprived of employment, the protected employee shall be paid such employee's guaranteed hourly rate for the number of hours such employee would have worked in the straight time work schedule of such employee's previously held position.

"(D) Notwithstanding the provision that the protected rate shall be the rate of the position held on or immediately preceding September 1, 1979, if a protected employee becomes the permanent incumbent of a higher rated position and is not disqualified therefrom, the higher rate shall become such employee's protected rate.

Ante, p. 1895.

"(2) Notwithstanding paragraph (1) of this subsection, effective on the effective date of the Staggers Rail Act of 1980, a protected maintenance-of-way employee shall be afforded his average monthly compensation, which is defined as the total compensation received by such employee during the 12 months immediately preceding January 1, 1975, divided by his total time paid for during that period and multiplied by 174 or by his average monthly time paid for, whichever is less, and adjusted to reflect subsequent general wage increases. If a protected employee is deprived of employment or if the employee's straight-time compensation in his current position is less in any month than the employee's average monthly compensation, the employee shall be paid the difference between his straight-time earnings, if any, and 80 percent of the average monthly compensation, less any time lost on account of voluntary absences other than vacations. If, at the close of the calendar year, the sum of the protected employee's annual straight-time compensation, monthly displacement allowance payments and offsets applicable pursuant to this title is less than the employee's average monthly compensation multiplied by 12, the employee shall receive an additional payment representing the difference. If in the previous calendar year an employee has received displacement allowance payments in excess of his annual entitlement, the excess payments shall be recovered from any current or future entitlement to monetary benefits afforded by this title, exclusive of benefits afforded by section 505(g) of this title.

94 STAT. 1950

45 USC 775.

Ante, p. 1895.

"(3) Effective on the effective date of the Staggers Rail Act of 1980 a protected operating employee (as defined in Interstate Commerce Commission classifications 107 through 128) who has been deprived of employment or adversely affected with respect to such employee's compensation shall be afforded his average monthly compensation computed in accordance with this subsection as in effect prior to such effective date, but subject to a maximum amount equal to one-twelfth of the average annual earnings of all employees in the Interstate Commerce Commission classification, computed by cumulating the employee earnings reported to the Commission by the Corporation on a monthly basis for calendar year 1977 for the Interstate Commerce Commission classification of operating service in which such employee performed the preponderance of such employee's work in calendar year 1974, increased by applicable general wage increases. If the employee performed no operating service in 1974, the Interstate Commerce Commission classification shall be determined by the preponderance of such employee's operating service in an immediately preceding calendar year. If the average monthly compensation of a protected operating employee exceeds the maximum amount described in the first sentence of this paragraph, the average monthly compensation of the employee will be reduced to such maximum amount for purposes of computing such employee's monthly displacement allowance, if any. If the average monthly compensation of a protected operating employee is less than such maximum amount, the average monthly compensation of the employee will be used to compute such employee's monthly displacement allowance, if any. If a protected employee is deprived of employment, or if the employee is adversely affected with respect to his compensation such that the compensation in such employee's current position is less in any month than the average monthly compensation of the employee or such maximum amount, whichever is less, the employee shall be paid 75 per centum of the difference between such employee's earnings, if any, and the lesser figure, minus any time lost on account of voluntary absences other than vacations. If at the close of the calendar year the sum of the protected employee's annual earnings, monthly displacement allowance payments, and offsets applicable pursuant to this title is less than such employee's average monthly compensation subject to the maximum amount and multiplied by 12, the employee shall receive an additional payment representing the difference. In the computation of the annual payment, if during the calendar year an employee has been force assigned to, or has been required to exercise seniority to, a position in an Interstate Commerce Commission classification with a lesser maximum amount than the maximum amount applicable to such employee's 1974 Interstate Commerce Commission classification, such employee shall be paid the difference without credit being taken for compensation earned by virtue of actual working hours in the calendar year in excess of the number of hours paid for in such employee's average monthly compensation multiplied by 12 or such employee's annual 1977 maximum amount, whichever is less. An employee's compensation for purposes of this subsection shall not include savings sharing productivity payments received pursuant to paragraph (t) of the Crew Consist Agreement between the Corporation and the United Transportation Union dated September 8, 1978. If, in the previous calendar year, an employee has received displacement allowance payments in excess of such employee's annual entitlement, the excess payments shall be recovered from any current or future entitlement to monetary benefits afforded by this title, exclusive of benefits afforded by subsection (g) of this section.

"(4) Effective on the effective date of the Staggers Rail Act of 1980, a protected noncontract employee who has been deprived of employment or adversely affected with respect to such employee's compensation shall retain his average monthly compensation and monthly displacement allowance computed in accordance with this subsection as in effect prior to such effective date. In the event such noncontract employee exercises or has exercised seniority in a craft or class of operating employees, such employee's entitlement to a monthly displacement allowance and fringe benefits, and such employee's eligibility for transfer, shall be the same as the entitlement and eligibility of other protected employees in the craft or class in which seniority is exercised. In the event such noncontract employee exercises or has exercised seniority in a craft or class of nonoperating employees, the entitlement of such employee to a monthly displacement allowance and fringe benefits, and such employee's eligibility for transfer, shall be consistent with the entitlement and eligibility of other protected employees in the craft or class in which seniority is exercised, except that the protected rate of pay shall be based on the rate of pay of the position first obtained through the exercise of seniority, rather than the rate of any position held on or prior to September 1, 1979.

Ante, p. 1895.

"(5) Notwithstanding the preceding provisions of this subsection, employees who, prior to September 1, 1979, accepted transfer to positions requiring a change of residence pursuant to subsection (d) of this section, shall retain their average monthly compensation and monthly displacement allowance computed in accordance with this subsection prior to the effective date of the Staggers Rail Act of 1980.

"(6) In determining compensation in a protected employee's current employment, such employee shall be treated as occupying the position producing the highest rate of pay to which such employee's qualifications and seniority entitle the employee under the applicable collective bargaining agreement and which does not require a change in residence. A protected operating employee will be considered to be occupying the position producing the highest rate of pay if the employee occupies a position producing compensation equal to such employee's average monthly compensation, subject to the maximum amount.

"(7) With respect to a protected employee who has been deprived of employment, the monthly displacement allowance shall be reduced by (A) the full amount of any unemployment compensation benefits received by such employee, and (B) an amount equivalent to any outside earnings of such employee.

"(8) A protected employee's average monthly compensation or protected rate of pay shall be adjusted from time to time thereafter to reflect subsequent general wage increases.

94 STAT. 1952

"(9) The average monthly compensation or protected rate of pay provided by this section shall in no event exceed $2,500 in any month, except that such amount shall be adjusted to reflect general wage increases subsequent to April 1, 1976.

"(10) A protected employee and his representative shall be furnished with such employee's protected rate of pay, or average monthly compensation and average monthly time paid for, subject to the maximum amount, computed in accordance with the terms of this subsection. Each protected employee who has been deprived of employment or his representative and the employer shall agree upon a procedure by which the employee shall keep the employer currently informed of the unemployment compensation benefits received by such employee and the earnings of such employee in employment other than with such employer.

"(11) In the case of a supplemental transaction—

"(A) with respect to an employee described in paragraph (1) of this subsection who was not employed on September 1, 1979, the protected rate of pay of such employee shall be based on the rate of pay of the position held by such employee on the first day of the first month after September 1979 in which such employee was employed;

"([illegible]) with respect to an employee described in paragraph (2) of this subsection who was not employed during the 12 months immediately preceding January 1, 1975, the average monthly compensation of such employee shall be determined on the basis of the first 12-month period after January 1, 1974, during which such employee was employed; and

"(C) with respect to an employee described in paragraph (3) of this subsection—

"(i) if such employee was employed during the 12 months immediately preceding January 1, 1975, the average monthly compensation of such employee shall be determined on the basis of such 12-month period; and

"(ii) if such employee was not employed during the 12 months immediately preceding January 1, 1975, the preponderance of work of such employee shall be determined on the basis of the first 12-month period after January 1, 1974, during which such employee was employed.".

DURATION OF MONTHLY DISPLACEMENT ALLOWANCE

SEC. 502. Section 505(c) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 775(c)) is amended to read as follows:

"(c) DURATION OF MONTHLY DISPLACEMENT ALLOWANCE.—The monthly displacement allowance provided for in subsection (b) of this section shall, in the case of a protected employee with 5 or more years of service on the effective date of this Act, continue until the attainment of age 65 by such employee, and shall, in the case of a protected employee who has less than 5 years of service on such date, continue for a period equal to the employee's total prior years of service, except that such monthly displacement allowance—

"(1) shall terminate upon the protected employee's death, retirement, resignation, or dismissal for cause;

"(2) shall not be paid with respect to any period of disciplinary suspension for cause, failure to work due to illness or disability, voluntary furlough, or failure to retain or obtain a position available to the employee by the exercise of such employee's seniority rights in accordance with the provisions of this section;

"(3) shall not be paid to a protected employee deprived of employment with respect to any period of failure to work due to strike, fire, flood, snowstorm, hurricane, earthquake, tornado, or other similar natural occurrence that causes a suspension of operations in whole or in part and precludes performance of the work which would be performed by the incumbents of the positions to be abolished or the work which would be performed by the employees involved in the force reductions (but the payment of monthly displacement allowances shall be resumed upon termination of the emergency); and

"(4) shall not be paid with respect to any month that commences after the effective date of the Staggers Rail Act of 1980 for which the employee has failed to make a claim for such allowance within 3 full calendar months (unless otherwise agreed upon by the employee or his representative and the employer) after the last day of the month for which such allowance is sought, except that such 3-month limit shall not apply to any claim which is the subject of or is based upon an arbitration decision issued pursuant to section 507 of this title. Unless otherwise agreed upon by the employee or his representative and the employer, the entitlement of an employee to an allowance shall be approved or denied within 150 days after the claim therefor is made if such claim is filed during the 12-month period beginning on the effective date of the Staggers Rail Act of 1980, and within 90 days after the claim therefor is made if such claim is filed after such 12-month period. Any claim not approved or denied at the expiration of the time limits described in the preceding sentence shall be deemed approved.".

Tonnage Measurement Simplification Act.
46 USC 71 note.

SEC. 201. SHORT TITLE.—This Act may be cited as the "Tonnage Measurement Simplification Act".

SEC. 202. MEASUREMENT.—Section 4148 of the Revised Statutes of the United States, as amended (46 U.S.C. 71) is further amended to read as follows:

"SEC. 4148. (a) Before a vessel is documented or recorded under the laws of the United States, or where the application of a law of the United States to a vessel is determined by its tonnage, the vessel shall be measured by the Secretary of the department in which the Coast Guard is operating. The Secretary may, by regulation, provide for the temporary documentation of a vessel prior to the measurement required by this section.

"(b) A vessel required to be measured under subsection (a) of this section, other than a vessel used exclusively for pleasure, shall be measured as prescribed in sections 4151 and 4153 of the Revised Statutes of the United States, as amended, and to the extent applicable, as prescribed in Public Law 89-219, September 29, 1965 (79 Stat. 891; 46 U.S.C. 83-83k) if—

"(c) A vessel not required to be measured under subsection (b) of this section may be so measured if requested by its owner. A vessel not measured under subsection (b) shall be assigned gross and net tonnages by the Secretary which are functions of its length, breadth, depth, and other dimensions, including appropriate coefficients. The Secretary shall prescribe the manner in which dimensions are measured and which coefficients are appropriate. The resulting gross tonnages, taken as a group, shall reasonably reflect the relative internal volumes of the vessels measured, and the resulting net tonnages shall be in approximately the same ratios to corresponding gross tonnages as are the net and gross tonnages of comparable vessels measured under subsection (b) of this section. In accordance with regulations issued under this subsection, the Secretary may determine the gross and net tonnages of a vessel which is representative of a designated class, model, or type and may assign those gross and net tonnages to other vessels of the same class, model, or type.

94 STAT. 3462

"(d) A vessel shall be remeasured if—

"(1) the vessel is altered or the use of its space is changed so that its gross or net tonnage is affected;

"(2) having been measured under subsection (c) of this section, the vessel becomes, by use or alteration, subject to subsection (b) of this section; or

"(3) having been measured under subsection (b) of this section and not required to be so measured, the owner requests that the vessel be measured under subsection (c) of this section.

Except as provided in this subsection, a vessel that has been measured is not required to be remeasured to obtain another document.

Regulations.

"(e) The Secretary shall make such regulations as may be necessary to carry out the provisions of sections 4148, 4149, 4150, 4151, and 4153 of the Revised Statutes, as amended (46 U.S.C. 71, 72, 74, 75, 77).".

In the event that the United States should have need for the vessel, the Superior-Douglas County Museum, on request of the Secretary of Commerce shall make the vessel available to the United States without cost. "§ 1503. Periods of eligibility

"(a) Except as provided in subsection (b), (c), or (d) of this section, a rehabilitation program may not be afforded to a veteran under this chapter after the end of the twelve-year period beginning on the date of such veteran's discharge or release from active military, naval, or air service.

"(b)(1) In any case in which the Administrator determines that a veteran has been prevented from participating in a vocational rehabilitation program under this chapter within the period of eligibility prescribed in subsection (a) of this section because a medical condition of such veteran made it infeasible for such veteran to participate in such a program, the twelve-year period of eligibility shall not run during the period of time that such veteran was so prevented from participating in such a program, and such period of eligibility shall again begin to run on the first day following such veteran's recovery from such condition on which it is reasonably feasible, as determined under regulations which the Administrator shall prescribe, for such veteran to participate in such a program.

"(2) In any case in which the Administrator determines that a veteran has been prevented from participating in a vocational rehabilitation program under this chapter within the period of eligibility prescribed in subsection (a) of this section because—

"(3) In any case in which the Administrator determines that a veteran has been prevented from participating in a vocational rehabilitation program under this chapter within the period of eligibility prescribed in subsection (a) of this section because such veteran had not established the existence of a service-connected disability described in section 1502(1)(A) of this title, the twelve-year period of eligibility shall not run during the period such veteran was so prevented from participating in such a program.

"(c) In any case in which the Administrator determines that a veteran is in need of services to overcome a serious employment handicap, such veteran may be afforded a vocational rehabilitation program after the expiration of the period of eligibility otherwise applicable to such veteran if the Administrator also determines, on the basis of such veteran's particular employment handicap and need for such services, that an extension of the applicable period of eligibility is necessary for such veteran and—

"(1) that such veteran had not previously been rehabilitated to the point of employability;

"(2) that such veteran had previously been rehabilitated to the point of employability but (A) the need for such services had arisen out of a worsening of such veteran's service-connected disability that precludes such veteran from performing the duties of the occupation for which such veteran was previously trained in a vocational rehabilitation program under this chapter, or (B) the occupation for which such veteran had been so trained is not suitable in view of such veteran's employment handicap and capabilities; or

"(3) under regulations which the Administrator shall prescribe, that an extension of the period of eligibility of such veteran is necessary to accomplish the purposes of a rehabilitation program for such veteran.

"(d) In any case in which the Administrator has determined that a veteran's disability or disabilities are so severe that the achievement of a vocational goal is not reasonably feasible, such veteran may be afforded a program of independent living services and assistance under this chapter after the expiration of the period of eligibility otherwise applicable to such veteran if the Administrator also determines that an extension of the period of eligibility of such veteran is necessary for such veteran to achieve maximum independence in daily living.

"(12) For the most severely disabled veterans requiring homebound training or self-employment, or both homebound training and self-employment, such license fees and essential equipment, supplies, and minimum stocks of materials as the Administrator determines to be necessary for such a veteran to begin employment and are within the criteria and cost limitations that the Administrator shall prescribe in regulations for the furnishing of such fees, equipment, supplies, and stocks.

38 USC 111.

"(13) Travel and incidental expenses under the terms and conditions set forth in section 111 of this title, plus, in the case of a veteran who because of such veteran's disability has transportation expenses in addition to those incurred by persons not so disabled, a special transportation allowance to defray such additional expenses during rehabilitation, job seeking, and the initial employment stage.

38 USC 1505.

"§ 1505. Duration of rehabilitation programs

"(a) In any case in which the Administrator is unable to determine whether it is reasonably feasible for a veteran to achieve a vocational goal, the period of extended evaluation under section 1506(c) of this title may not exceed twelve months, except that such period may be extended for additional periods of up to six months each if the Administrator determines before granting any such extension that it is reasonably likely that, during the period of any such extension, a determination can be made whether the achievement of a vocational goal is reasonably feasible in the case of such veteran.

"(b) Except as provided in subsection (c) of this section, the period of a vocational rehabilitation program for a veteran under this chapter following a determination of the reasonable feasibility of achieving a vocational goal may not exceed forty-eight months, except that the counseling and placement and postplacement services described in section 1504(a) (2) and (5) of this title may be provided for an additional period not to exceed eighteen months in any case in which the Administrator determines the provision of such counseling and services to be necessary to accomplish the purposes of a rehabilitation program in the individual case.

Extensions.

"(c) The Administrator may extend the period of a vocational rehabilitation program for a veteran to the extent that the Administrator determines that an extension of such period is necessary to enable such veteran to achieve a vocational goal if the Administrator also determines—

"(1) that such veteran had previously been rehabilitated to the point of employability but (A) such veteran's need for further vocational rehabilitation has arisen out of a worsening of such veteran's service-connected disability that precludes such veteran from performing the duties of the occupation for which such veteran had been so rehabilitated, or (B) the occupation for which such veteran had been so rehabilitated is not suitable in view of such veteran's employment handicap and capabilities; or

"(2) under regulations which the Administrator shall prescribe, that such veteran has a serious employment handicap and that an extension of such period is necessary to accomplish the purposes of a rehabilitation program for such veteran.

"(d) Unless the Administrator determines that a longer period is necessary and likely to result in a substantial increase in a veteran's level of independence in daily living, the period of a program of independent living services and assistance for a veteran under this chapter (following a determination by the Administrator that such veteran's disability or disabilities are so severe that the achievement of a vocational goal is not reasonably feasible) may not exceed twenty-four months.

"§1506. Initial and extended evaluations; determinations regarding serious employment handicap

38 USC 1506.

"(a) The Administrator shall provide any veteran who has a service-connected disability described in section 1502(1) (A) or (B) of this title and who applies for benefits under this chapter with an intitial evaluation consisting of such services described in section 1504(a)(1) of this title as are necessary (1) to determine whether such veteran is entitled to and eligible for benefits under this chapter, and (2) in the case of a veteran who is determined to be entitled to and eligible for such benefits, to determine—

"(A) whether such veteran has a serious employment handicap, and

"(B) whether the achievement of a vocational goal is reasonably feasible for such veteran if it is reasonably feasible to make such determination without extended evaluation.

"(b) In any case in which the Administrator has determined that a veteran has a serious employment handicap and that the achievement of a vocational goal is reasonably feasible for such veteran, such veteran shall be provided counseling in accordance with an individualized written plan of vocational rehabilitation developed under section 1507(a) of this title.

"(c) In any case in which the Administrator has determined that a veteran has a serious employment handicap but the Administrator is unable to determine, in an initial evaluation pursuant to subsection (a) of this section, whether or not the achievement of a vocational goal is reasonably feasible, such veteran shall be provided with extended evaluation consisting of the services described in section 1504(a)(1) of this title, such services under this chapter as the Administrator determines necessary to improve such veteran's potential for participation in a program of services designed to achieve a vocational goal and enable such veteran to achieve maximum independence in daily living, and assistance as authorized by section 1508 of this title.

"(d) The Administrator shall in all cases determine as expeditiously as possible whether the achievement of a vocational goal by a veteran is reasonably feasible. In the case of a veteran provided extended evaluation under subsection (c) of this section (including any periods of extensions under section 1505(a) of this title), the Administrator shall make such determination not later than the end of such extended evaluation or period of extension, as the case may be. In determining whether the achievement of a vocational goal is reasonably feasible, the Administrator shall resolve any reasonable doubt in favor of determining that such achievement is reasonably feasible.

"(e) In connection with each period of extended evaluation of a veteran and each rehabilitation program for a veteran who is determined to have a serious employment handicap, the Administrator shall assign a Veterans' Administration employee to be responsible for the management and followup of the provision of all services (including appropriate coordination of employment assistance under section 1517 of this title) and assistance under this chapter to such veteran.

"§1507. Individualized vocational rehabilitation plan

38 USC 1507.

"(a) The Administrator shall formulate an individualized written plan of vocational rehabilitation for a veteran described in section

1506(b) of this title. Such plan shall be developed with such veteran and shall include, but not be limited to (1) a statement of long-range rehabilitation goals for such veteran and intermediate rehabilitation objectives related to achieving such goals, (2) a statement of the specific services (which shall include counseling in all cases) and assistance to be provided under this chapter, (3) the projected date for the initiation and the anticipated duration of each such service, and (4) objective criteria and an evaluation procedure and schedule for determining whether such objectives and goals are being achieved.

Review.

"(b) The Administrator shall review at least annually the plan formulated under subsection (a) of this section for a veteran and shall afford such veteran the opportunity to participate in each such review. On the basis of such review, the Administrator shall (1) redevelop such plan with such veteran if the Administrator determines, under regulations which the Administrator shall prescribe, that redevelopment of such plan is appropriate, or (2) disapprove redevelopment of such plan if the Administrator determines, under such regulations, that redevelopment of such plan is not appropriate.

"(c)(1) Each veteran for whom a plan has been developed or redeveloped under subsection (a) or (b)(1), respectively, of this section or in whose case redevelopment of a plan has been disapproved under subsection (b)(2) of this section, shall be informed of such veteran's opportunity for a review as provided in paragraph (2) of this subsection.

Written disagreement statement.

"(2) In any case in which a veteran does not agree to such plan as proposed, to such plan as redeveloped, or to the disapproval of redevelopment of such plan, such veteran may submit to the person described in section 1506(e) of this title a written statement containing such veteran's objections and request a review of such plan as proposed or redeveloped, or a review of the disapproval of redevelopment of such plan, as the case may be.

Statement review.

"(3) The Administrator shall review the statement submitted under paragraph (2) of this subsection and the plan as proposed or as redeveloped, and, if applicable, the disapproval of redevelopment of the plan, and render a decision on such review not later than ninety days after the date on which such veteran submits such statement, unless the case is one for which a longer period for review, not to exceed 150 days after such veteran submits such statement, is allowed under regulations prescribed by the Administrator, in which case the Administrator shall render a decision no later than the last day of the period prescribed in such regulations.

38 USC 1508.

"§ 1508. Allowances

"(a)(1) Except in the case of a veteran who makes an election under subsection (f) of this section and subject to the provisions of paragraph (3) of this subsection, each veteran shall be paid a subsistence allowance in accordance with this section during a period determined by the Administrator to be a period of such veteran's participation under this chapter in a rehabilitation program.

"(2) In any case in which the Administrator determines, at the conclusion of such veteran's pursuit of a vocational rehabilitation program under this chapter, that such veteran has been rehabilitated to the point of employability, such veteran shall be paid a subsistence allowance, as prescribed in this section for full-time training for the type of program that the veteran was pursuing, for two months following the conclusion of such pursuit.

"(3) A subsistence allowance may not be paid under this chapter to a veteran for any period during which such veteran is being provided with an initial evaluation under section 1506(a) of this title or during which such veteran is being provided only with counseling or with placement or postplacement services under section 1505(b) of this title.

"(b) Except as otherwise provided in this section, the Administrator shall determine the subsistence allowance to be paid to a veteran under this chapter in accordance with the following table, which shall be the monthly amount shown in column II, III, IV, or V (whichever is applicable as determined by the veteran's dependency status) opposite the appropriate type of program being pursued as specified in column I:

In any case in which such services and assistance have been discontinued, the Administrator may reinstitute such services and assistance only if the Administrator determines that—

"(1) the cause of the unsatisfactory conduct or cooperation of such veteran has been removed; and

"(2) the rehabilitation program which such veteran proposes to pursue (whether the same or revised) is suitable to such veteran's abilities, aptitudes, and interests.

[1] Includes amounts for fiscal year 1980 for programs funded through continuing appropriations, Public Law 96-123 (Sec. 101(c)). These amounts were *excluded* from the previous volume (96th Cong., 1st sess.) since the continuing resolution provided for these programs at the "current rate". Figures reflecting the new budget (obligational) authority for these programs at the "current rate" have been taken from the 1980 column of the President's Budget for 1981 (House Document 96-246). These amounts total $1,146,946,000 and consist of $1,088,464,000 under the Department of Health, Education, and Welfare; and $58,482,000 under General Government (see Table VIII on p. 1959 for the agencies involved).

[2] Pursuant to Section 304(a) of Public Law 96-304 (see p. 85, this volume).

[3] Section 401 of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93-344) requires that all borrowing and contract authority (so called "backdoor authority") enacted after March 3, 1975 be subject to subsequent appropriation action. As a result, there were no legislative acts approved during the 96th Cong., 2d sess., carrying appropriations.

[5] H.R. 7584, the Departments of State, Justice and Commerce, The Judiciary, and Related Agencies Appropriation Bill for 1981, was vetoed by the President on December 13, 1980. The veto message and bill were referred to the Committee on Appropriations, and no attempt was made by the Congress to override the President's veto. Funding for programs and activities normally included in this bill is provided under sec. 101(o) of Public Law 96-536, Further Continuing Appropriations for fiscal year 1981 (see page 382, this volume).

[6] H.R. 7583, the Treasury, Postal Service, and General Government Appropriations Bill for 1981, was passed by the House of Representatives on August 20, 1980, and reported by the Senate Committee on Appropriations on September 17, 1980; however, no further action was taken by the Senate. Funding of programs and activities normally included in this bill is provided under sec. 101(a)((4), sec. 101(d), and sec. 111 of Public Law 96-536, Further Continuing Appropriations for fiscal year 1981 (see pages 378, 380, and 384, this volume).

[7] H.R. 7325 was *laid on table* June 19, 1980.

[8] See H.J. Res. 514 and H.J. Res. 541.

[9] The Senate further insisted on its amendment to the House amendment to Senate Amendment No. 7. See H.J. Res. 644 which was subsequently considered and passed by Congress in lieu of H.J. Res. 637.

[10] See pp. 387-401 and pp. 403-408 for status reports on rescissions and deferrals.

NOTE.—The President's Budget for 1981, as submitted January 28, 1980 (H. Doc. 96-246), tentatively estimated total new budget (obligational) authority for fiscal year 1981 at $696.1 billion net ($784.7 billion gross, including $88.6 billion in intragovernmental transactions and certain so-called proprietary receipts handled as offsets for budget purposes only). An estimated $359.3 billion does not require action by Congress. This amount includes permanent appropriations such as interest on the public debt and various trust funds for which the obligational authority is already provided in the basic law. Virtually all of the remaining $425.4 billion is for consideration at this session of Congress in the appropriation bills. Approximately $15.7 billion of the $425.4 billion was shown in the January budget as being "for later transmittal" for supplemental requirements under present law, new legislation, allowances, and for contingencies and civilian pay raises.

VIII. ITEMIZED COMPARISONS OF BUDGET ESTIMATES, APPROPRIATIONS AND RESCISSIONS ARRANGED BY ACTS, 96TH CONGRESS, 2D SESSION

[NOTE.—Concept of "estimates" and "appropriations" as used in this tabulation, beginning with the 90th Cong., 2d sess., differs to some limited general extent from previous tabulations. (See explanation, par. 4, "Compilers' Notes," p. II.)]

CONTINUING APPROPRIATIONS, 1980, PUBLIC LAW 96-123, APPROVED NOVEMBER 20, 1979

[NOTE.—This table reflects amounts for fiscal year 1980 for programs funded through the continuing resolution, Public Law 96-123 (sec. 101(c)). These amounts were *excluded* from the previous volume (96th Cong., 1st sess.) since the continuing resolution provided for these programs at the "current rate" rather than a definite amount because authorizing legislation had not been approved at the time of consideration of the Labor-HEW Appropriations Bill, 1980 (H.R. 4389). The amounts shown below in the column "New budget (obligational) authority appropriated" have been determined by reference to the 1980 column of the President's Budget for 1981 (House Document No. 96-246). (See footnote 3 on page 1338 of the previous volume (96th Cong., 1st sess.)).]

FOREIGN ASSISTANCE AND RELATED PROGRAMS APPROPRIATIONS BILL, 1981
(H.R.7854)

[NOTE.—The Foreign Assistance and Related Programs Appropriation Bill, 1981 (H.R. 7854) was not approved by Congress. The bill was reported by the Committee on Appropriations of the House of Representatives (House Report 96-1207), but no action was taken by the House of Representatives on the bill, and no bill was reported or acted upon in the Senate. Funding for activities normally included in the regular annual Foreign Assistance Appropriation Bill is provided through two continuing resolutions: Public Law 96-369, Sec. 101(b) (see pp. 369-377, this volume); and Public Law 96-536, Sec. 101(b) (see pp. 379-386, this volume). These resolutions refer to the conference report (House Report 96-1536 as reported and agreed to December 13, 1980) accompanying H.J. Res. 637 as a basis for fiscal year 1981 appropriations. That conference report uses the conference report (House Report 96-787) on the Foreign Assistance and Related Programs Appropriation Bill, 1980 (H.R. 4473) as a basis for fiscal year 1981 appropriations and details specific changes to those funding levels. Funding for the Export-Import Bank was provided through Public Law 96-334 (see p. 89, this volume); and funding for the International Monetary Fund was provided through Public Law 96-544 (see pp. 367-368, this volume). The foregoing appropriations were adjusted in the Supplemental Appropriations and Rescission Act, 1981, Public Law 97-12, Chapter V (see volume for 97th Cong., 1st sess.).]

[NOTE.—The Foreign Assistance and Related Programs Appropriation Bill, 1981 (H.R. 7854) was not approved by Congress. The bill was reported by the Committee on Appropriations of the House of Representatives (House Report 96-1207), but no action was taken by the House of Representatives on the bill, and no bill was reported or acted upon in the Senate. Funding for activities normally included in the regular annual Foreign Assistance Appropriation Bill is provided through two continuing resolutions: Public Law 96-369, Sec. 101(b) (see pp. 369-377, this volume); and Public Law 96-536, Sec. 101(b) (see pp. 379-386, this volume). Funding for the Export-Import Bank was provided through Public Law 96-334 (see p. 89, this volume); and funding for the International Monetary Fund was provided through Public Law 96-544 (see pp. 367-368, this volume). The foregoing appropriations were adjusted in the Supplemental Appropriations and Rescission Act, 1981, Public Law 97-12, Chapter V (see volume for 97th Cong., 1st sess.).]

[2] Estimates not considered by House.

[3] Reflects actual amount rescinded rather than comparison with request.

[4] Not reflected in the text of this appropriations act (Public Law 96-526). In accordance with the proposal presented in the President's Budget for fiscal year 1981, commitment authority under the "Housing for the Elderly or Handicapped Fund" became subject to the limitations of the Federal credit control system, and the accounting for all direct loan programs changed from a *net* basis to a *gross* basis. Accordingly, the budget authority (authority to borrow) shown for this program reflects the net loan limitation *less* the amounts estimated to be received as net income and loan repayments.

[5] Submitted in H. Doc. 96-294 but not considered due to lack of authorizing legislation.

[6] Reflects total reduction under section 412 as assumed by the House and Senate conferees on this bill; however, the interpretation of section 412 by the President's Office of Management and Budget as reflected in the fiscal year 1981 column of the President's Budget for 1982 shows an increase of $2,416,000 for a total reduction of $997,228,000. The Office of Management and Budget applied the section 412 reductions to the "Solar Energy And Energy Conservation Bank" but *excluded* the "payment of participation sales insufficiencies" account under the Government National Mortgage Association from the section 412 reductions. Of the total reduction of $994,812,000, reductions of $812,639,000 apply to the departments and agencies listed in title I and reductions of $182,173,000 apply to the independent agencies listed in title II.

[2] Consideration of estimates totalling $609,331,000 was deferred at the time of House consideration of H.R. 7998 due to a lack of authorizing legislation. These activities were subsequently authorized at the "current rate" by sec. 101(d) of P.L. 96–536. The related appropriations reflected in this table are from the FY 1981 column of the President's FY 1982 budget H. Doc. 97–1 and total $765,717,000, an increase of $156,386,000. These estimates and appropriations are shown as integral parts of the relevant appropriation on this table. The following accounts are affected: Health Services, Alcohol, Drug Abuse and Mental Health and Health Resources.

[3] These activities are entitlements funded under section 101(e) of P.L. 96–369, P.L. 96–536 and P.L. 97–12. "Such sums" are authorized which converts these accounts to indefinite appropriations (for FY 1981 only). The amount shown as the appropriation is the amount provided in H.R. 7998 as passed the House on August 27, 1980. Final expenditures are expected to be substantially higher. The following is a list of the accounts affected, the budget estimate transmitted by the President, the amount included in H.R. 7998 and the latest estimate as of March 1981.

[1] Reflects rescission of $285,000,000.

[2] Funding for programs and activities normally included in this bill is provided through further continuing appropriations, Public Law 96–536 (Sec. 101(b) see p. 380, this volume).

[3] Reflects rescission of $1,050,000,000.

[4] Funding for programs and activities normally included in this bill, including an advance appropriation of $172,000,000 for the Corporation for Public Broadcasting, is provided through three sequential continuing resolutions, Public Law 96–369, Public Law 96–536 and Public Law 97–12 (see p. 369–386, this volume).

[5] Funding for programs and activities normally included in this bill is provided through Public Law 96–536 (Sec. 101(c) and Sec. 101(d), see pp. 379–385, this volume).

[6] Includes $210,000 in compensation of members for mileage.

[7] Funding for programs and activities normally included in this bill is provided through Public Law 96–536 (Sec. 101(o), see p. 383, this volume).

[8] Funding for programs and activities normally included in this bill is provided through further continuing appropriations, Public Law 96–536 (Sec. 101(a), see pp. 379–386, this volume).

[9] Includes amounts considered and funded through continuing appropriations for programs and activities normally funded in five regular annual appropriation bills. These bills are (1) the Foreign Assistance and Related Programs Appropriation Bill, 1981, H.R. 7854 *($5,540,820,665)*; (2) the Departments of Labor, Health and Human Services, and Education and Related Agencies Appropriation Bill, 1981, H.R. 7998 *($84,558,823,000)*; (3) the Legislative Branch Appropriation Bill, 1981, H.R. 7593 *($1,199,579,600)*; (4) the Departments of State, Justice and Commerce, the Judiciary, and Related Agencies Appropriation Bill, 1981, H.R. 7584 *($9,131,756,000)*; (5) the Treasury, Postal Service, and General Government Appropriations Bill, 1981, H.R. 7583 *($9,689,792,881)*.

[10] Reflects rescissions totalling $3,183,572,146.

[11] Amounts for these bills are included in the totals for "regular annual appropriation acts".

[12] Section 401 of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344) requires that all borrowing and contract authority (so called "backdoor authority") enacted after March 3, 1975, be subject to subsequent appropriation action. As a result, there were no legislative acts approved during the 96th Congress, 2nd Session, carrying appropriations.

[13] Reflects actual amounts rescinded rather than comparison with requests. See pp. 387–401 and pp. 403–408 for status reports on rescissions and deferrals.

[14] Basically, amounts shown are taken from the January 1980 budget document (H. Doc. 96–246) and are subject to revision as better data become available.
